Hi,

I need not speak with you **Mr.Vijay** as you don't have any hold of our records with you, neither you are concerned about your customers..The reply I got from you was pathetic after the payment part was completed and you got the cheque from HDFC Bank. If Mr.Wasim had any doubt we are not genuine customer, he would not helped me. He would have never helped us in granting the loan from the bank. I am not here to gain name and fame in your company. Its of no use for us. We have a flat thats it. I am not an employee in your company neither I am a stake holder of your company. Its not just me I have many sample of your customer. We never said a lie to any one. We were jobless, we had financial crunch we couldn't pay the installment on time agreed. All the five fingers are not same Mr.Vijay, everyone has to face up and downs in there own life. That doesn't mean you can coin any one in a manner you feel for. There is no point in speaking with you as we totally lost faith, respect dignity and honor towards you. Its a waste of time now and ever. Please don't reply to use either, as we are interested to see your replies any more. As our ego's have already been hurted a lot. We don't want our email box to be pestered up any more

P.S:- **Mr. Vinod**. This is just a gentle reminder about our documents photo copies and we would like to take up our possession by this month end. Our tenant are ready to occupy by first of next month and if you have any issues with us by owning a flat in jannaadhar. I am ready to sale it back to janaadhar in current market rate. Because we are really frustrated of this issue. Clear to the fact we have lost the faith and trust in any of the janaadhars employees. As your employees wants to be on safer side and would never convey proper reliable reply but play a very nice pass on and blame games. This cheap behaviour and unethical tricks and tips would fetch you big name and fame. Don't thinks that we are one one customer, if we promote about your project to 10 they would again promote to 10 more.. thus this would go on increasing. To build up an empire and reputation it cost a lifetime span, but getting de-promoted in market just one subscriber of your institution is enough. They can destroy in a larger angle, This is not an vengens between you and me. But evrything has its own limits on its own.
